

# Provident Trust Strategy Fund (“PROVX”)

## June 30, 2025 Quarterly Review

**Investment Objective:** Seeks long-term growth of capital by investing mainly in a limited number of multi-capitalization growth stocks.

**Manager:** The Provident Trust Strategy Fund (the “Fund”) is advised by Provident Trust Company (“Provident”) of Waukesha, WI. Provident was founded in 1999 and is controlled by the principals of the firm.

**Investment Professionals:** J. Scott Harkness, CFA, Chairman and CEO of Provident, is responsible for the day-to-day management of the Fund.

**Strategy:** Provident is a concentrated core growth equity manager seeking to exceed the S&P 500 index return over full investment cycles. (A typical investment cycle last 5-7 years and includes both a 30% advance and a 20% decline.) The Fund can flexibly allocate assets between stocks, bonds and money markets to moderate volatility, and selects common stocks of all market capitalizations. Stock selection criteria include improving revenue and earnings growth, increasing margins, significant management stock ownership, and upward valuation potential. The Fund is a non-diversified investment company; please see the prospectus for further details.

**Manager Commentary:** PROVX gained 2.61% vs. the S&P 500’s 10.94% advance for the quarter ended June 30, 2025. During Provident’s tenure as portfolio manager (beginning September 9, 2002), PROVX gained +770.00% cumulatively with an 80.7% average month-end allocation to equities vs. +965.65% for the always fully invested S&P 500. Top performers for the quarter ended June 30, 2025 were Alphabet, Inc. (Class A&C), American Express Co., and The Charles Schwab Corp. while Accenture PLC, Fiserv, Inc., and UnitedHealth Group, Inc. underperformed. For 2025 – 2026, we forecast continued moderate 2 – 4% GDP, 2 - 4% 2 – 10-year treasury note yields and steady inflation, a positive environment for investor returns. We maintain our 20 – 30X S&P 500 valuation range through 2026, with a premium paid for durable GAAP earnings growth. The Fund’s poor six-month performance can reverse abruptly based on improving trends. During the quarter, we added to our Fiserv, Inc. and American Express Co. positions and reduced our Accenture PLC, Fastenal, Inc., The Charles Schwab Corp., T Rowe Price Group, Inc., Visa, Inc., Alphabet, Inc. (Class A & C) and Tractor Supply Co. positions and eliminated our UnitedHealth Group, Inc. position.

Opinions expressed are subject to change, are not guaranteed and should not be considered investment advice or recommendations to buy or sell any security.

*Mutual Fund investing involves risk. Principal loss is possible. The Fund is non-diversified, meaning it may concentrate its assets in fewer individual holdings than a diversified fund. Therefore, the Fund is more exposed to individual stock volatility than a diversified fund. The Fund may invest in smaller and medium sized companies, which involve additional risk such as more limited liquidity and greater volatility. Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. The Fund may invest in money market funds. An investment in a money market fund is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the money market fund seeks to preserve the value of an investment at \$1.00 per share, it is possible to lose money by investing in the fund.*

**Fund holdings are subject to change and are not recommendations to buy or sell any security.**
